

USD 250 2022 BOND

✓ NO MILL INCREASE ✓ HISTORIC RENOVATIONS ✓ GROWTH

BOND FAQs

WILL MY TAXES INCREASE?

Our projection of the bond and interest mill rate will not increase, this means the bond will not increase taxes for you.

HOW IS THERE NO MILL INCREASE?

Our debt on all other bond series, except the 2017 bond will come off the tax rolls by 2023. The 2017 Bond comes off in 2037. The 2022 bond will start to be paid in Sept. 2022 and will extend our current bond and interest mill rate of 10 mills through 2045.

WHAT IS A MILL?

One mill is one dollar of property tax levied against \$1,000 of assessed valuation. For more information on mill levies you can visit ksde.org.

WHAT IS A SCHOOL BOND ISSUE?

A school bond issue is used by a public school district to fund capital improvement projects. These measures are placed on the ballot by school boards to be considered by the voting public.

I DON'T HAVE A CHILD AT USD 250, WHY SHOULD I VOTE?

Even if you do not have a child attending USD 250, your property taxes help fund school bonds.

Young people are our future workforce, homeowners and taxpayers. Their education prepares them for the next step into adulthood, and the stronger their foundation the better their outcomes.

The 2022 bond will also create spaces that can be used by the community.

WHAT IS THE BOND SCOPE?

This Bond will construct, equip and furnish renovations and improvements to the existing 1921 section of Pittsburg Community Middle School, and make all other necessary improvements at an estimated cost of \$16,500,000 with NO MILL INCREASE.

The renovation will include all 4 floors of the 1921 section of the building. It will include remodeling existing classrooms to accommodate student growth and expansion of pathway courses by creating 21st century learning spaces, adding a modern science laboratory, an elevator for ADA compliance, and renovating the auditorium for school and community use.

DOES THE BOND IMPACT THE ENTIRE DISTRICT?

The only physical building that will see improvements is the middle school but the entire district will see an impact. The improvements made to PCMS will allow elementary curriculums to increase early introduction of STEM with students. Earlier introduction of STEM allows for students entering the high school to have already completed introductory-level courses, allowing students to work on more advanced skills and potentially receive certifications within their four years of high school.

WHAT IS THE TIMELINE FOR THE BOND?

The bond election is January 18, 2022. Should the bond pass, construction is projected to begin as early as June 2022. The projected date of completion is August 2023.
